Notes: 8 mm film transferred to video. Captions, black and white. Magic Glasses, a man discovers glasses that see through clothes. They invite a couple to their home and look at each other nude. One couple joins a nudist camp (Squaw Mtn Ranch) and invites the other couple to join them. They strip naked in the living room to get used to the idea. Gone With the Sun, a woman is shocked to find her friend nude in the back yard. Her child's illness leads to a doctor prescribing 'complete exposure to the sun' so they visit Squaw Mtn Ranch. they meet the doctor there, the child's teacher, and their nudist neighbor. The Nov 30, 1991 date on the Video is probably when the 8 mm was converted to VHS. If you look at the cars driving around, the date is more like mid-1950. This is a silent film but has continuous banjo and harpsichord playing old mountain country music. Nice clips of an old Studebaker driving around. Magic Glasses: 32 minutes: Gone With The Sun: 50 minutes.
